December 10, 1958

S/S -

The Secretary read the draft telegram on Berlin contingency planning that was included in the briefing book you prepared. I informed him that it was also being cleared with the President. I also told him of Bonn's cable 1212. The Secretary's only comment was that the idea of reference of our case to the Security Council or to the International Court of Justice seemed rather academic.

J. N. Greene, Jr.
